## HARD TAG POWER DETACHER

### DETTACHER DIMENSIONS (Free Standing)

Height:	Weight:
(LWD) 150 x 102 x 63 mm (5.9 x 4 x 2.5 in.)	1075 g (2.4 lbs.)

### DETTACHER DIMENSIONS (Flush Mount)

Height:	Weight:
(LWD) 220 x 180 x 63 mm (8.7 x 7.1 x 2.5 in.)	1115 g (2.5 lbs.)

### DETTACHER DIMENSIONS (Magnetic Decoupler)

Height:	Weight:
(LWD) 60 x 102 x 63 mm (8.7 x 7.1 x 2.5 in.)	150 g (0.3 lbs.)

The Sensormatic Hard Tag Power Detacher, when teamed with your security tag devices, provides the ultimate in theft prevention technology, while improving overall operational efficiency and customer satisfaction in retail locations.

Powerful features like keyless locking and a choice of three mounting positions make operation easier for store personnel and saves customers time at the register.

### YOUR CHOICE OF MOUNTING OPTIONS FOR MAXIMUM FLEXIBILITY

The Sensormatic Hard Tag Power Detacher plugs into an ordinary power outlet through a convenient power transformer included with the unit. It is suitable for any point-of-sale location, whether large or small. You can choose between three mount positions to best serve your needs:

- *Freestanding.* This counter installation is best if you plan to install the unit yourself.
- *Vertical mount.* Allows for installation on the side of the counter.
- *Flush mount.* Recesses the detacher below the counter surface and levels the tag nest with the counter.

The choice of mounting options makes the unit easier to use and adaptable to most check stands.

### PROGRAMMABLE FOR OPTIMAL CONTROL

The Sensormatic Hard Tag Power Detacher provides several options for maintaining control of the unit and other options to secure the unit. Unauthorized use of the device can be prevented with:

- *Pass codes.* Four-digit numbers that allow the user to lock or unlock the device and program other security features.

- *Keypad lock.* Allows users to manually lock the detacher.
- *Auto lock.* Automatically turns off the unit after a period of inactivity.

These options allow you to customize the unit to suit your security needs.

### MULTIPURPOSE FOR MULTIPLE TAGGING SOLUTIONS

The unit features an optional magnetic decoupler attachment that converts to a detacher that accommodates both SuperTags and clutch tags.

This allows you to add benefit denial, SensorLock™ and specialty clutch-based tag products to your security lineup without purchasing separate detachers.

The magnetic decoupler can be used in all mount positions—vertical, freestanding, and flush. It is also equipped with a standard T-lock device to prevent unauthorized use.

### COMMUNICATES WITH OTHER DEVICES

The Sensormatic Hard Tag Power Detacher includes a RS232 communications port for data transmission to external devices like POS terminals and RFID technologies. This allows total integration between devices for such functions as enabling and disabling the detacher by bar code scan.

### COMPATIBLE WITH ULTRA-MAX® TAGS AND ELECTROMAGNETIC SYSTEMS

The Sensormatic Hard Tag Power Detacher is completely compatible with all Ultra•Max tags and electromagnetic systems. So you don't have to worry about removing or upgrading your existing system.
