

Sensormatic® SuperTag® Mini

Maximum anti-theft protection for small and delicate goods

Product Benefits

- *Reduces chances of fabric pulls, snags and stretching*
- *Superior tack retention with SuperTag clamp*
- *High defeat resistance*
- *Ultra•Max performance*

Two-way protection for delicates and smaller items.

The Sensormatic SuperTag Mini CA is specially designed to protect merchandise from damage while it protects against shoplifting. It's the smallest, lightest SuperTag, made with soft, rounded edges that are kind to the most sensitive materials. Yet it provides the greatest anti-theft protection available in its category. The SuperTag Mini CA does it all with the high quality characteristics you expect from a SuperTag.

Demand the best. Prevent the worst.™

Big deterrence in a small package

Don't let the size fool you: the SuperTag Mini CA frustrates shoplifters in a big way. The smallest hard tag in the SuperTag line, its ingenious design gives it the anti-shoplifting clout of larger SuperTags. The Mini delivers the goods in a package that makes it perfect for small items and delicate soft goods that are often the target of retail theft.

'Mini' benefits for delicate merchandise

The Sensormatic SuperTag Mini CA weighs less than some department store price tags. It greatly reduces the chance of pulls and stretching, even when used on lingerie, sheer scarves and silk items. There are no protruding edges or corners, either – the entire tag has only soft, rounded edges, minimizing snags and unintended punctures.

Superior detection in a ferrite-based tag

The SuperTag Mini CA uses Sensormatic's ferrite-based Certified Electronic Assembly to make it as small as possible. In pick testing using various systems with different noise conditions, it averaged a 7-8% higher detection rate than comparable tags.

Features that make thieves give up

Due to its extremely small size, the SuperTag Mini CA is hard to grasp firmly enough for a defeat attempt.

Features

- Small, lightweight
- Rounded edges
- High detection rate
- Patented rotary clamp

SuperTag power detacher

SuperTag hand detacher

Its casing is made with the same superior plastic found in every SuperTag. And the Mini CA also incorporates our patented, high-integrity clamp mechanism. Tacks are held so tightly, it's virtually impossible to remove one with anything other than a genuine SuperTag detacher.

Sensormatic quality and compatibility

Like all Sensormatic tags and systems, the SuperTag Mini CA is designed, manufactured and thoroughly tested according to our rigorous, industry-leading standards.

It's compatible with any of your existing Ultra•Max detectors, SuperTag hand and power detachers, all SuperTag tacks, plus Versaties and other accessories. So it lets you make the most of your existing security investment.

Tag Dimensions

(LWH) 2.13 x 1.2 x 0.72 in. (54 x 31 x 18 mm)

Weight: 0.48 oz. (13.65 g)
